Professional Summary

Accomplished Software Engineer with 4+ years of experience in **Python** and **Java** backend ecosystems. Spearheading high-impact Generative AI solutions and scalable **microservices**. Expertise in **Python**, **LLM** models, **Java**, **Spring Boot**, **Kafka**, and **AWS** cloud architecture to deliver production-ready software.

Skills Summary

- **Languages:** Python, Java ,ReactJS
- **Backend:** FastAPI, Spring Boot, Spring Cloud, Microservices, Kafka, JUnit5, Mockito, Data Structures
- **AI & LLM:** Generative AI, LLM Integration, Gemini 2.5 Flash, ElevenLabs, Google STT/TTS
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Frontend:** ReactJS, HTML, CSS, Bootstrap
- **Cloud & DevOps:** AWS (Lambda, EC2, S3), Docker(Basic), Jenkins, GitLab CI/CD, Linux
- **Tools:** FFMPEG, IntelliJ, VS Code, Postman, Jira, GitHub

Experience

• Extramarks Education Pvt. Ltd.

Software Engineer | Oct 2025 - Present

- Architected and deployed asynchronous **RESTful** APIs using **Python FastAPI**, optimizing data retrieval latency and enhancing service responsiveness.
- Integrated Google Cloud Storage (**GCS**) with **Secret Manager** to secure sensitive transcription data access for production workflows.
- Developed a high-performance Multilingual Media Review Panel in **ReactJS**, streamlining the validation process for AI-generated content by language experts.
- Engineered a dual-TTS synthesis pipeline (**ElevenLabs** & **Google Cloud TTS**) for automated, high-fidelity multilingual audio regeneration.
- Utilized **FFMPEG** with **atempo** filter to manipulate **ElevenLabs** and **Google TTS** generated audio, ensuring precise alignment with required video durations.
- Optimized synchronization logic using **requestAnimationFrame**, achieving frame-accurate alignment for synthetic audio across 8+ regional languages.

• Quarks Technosoft Pvt Ltd

Java Software Engineer | Apr 2025 - Sep 2025

◦ Extramarks Education

- Engineered **Python**-based Generative AI solutions for multilingual voice generation, leveraging **Gemini** and **ElevenLabs** to scale educational content.
- Implemented advanced speaker detection using **Resemblyzer** and **HDBSCAN**, significantly improving speaker classification accuracy for multi-speaker videos.
- Automated transcript generation and translation workflows using **Google STT** and **Gemini 2.5 Flash**, substantially reducing manual processing time.
- Synthesized natural-sounding audio via **Google TTS**, delivering regionalized learning experiences to a vast student base.
- Collaborated with academic teams to refine AI-generated outputs, ensuring high-quality pedagogical standards and natural voice flow.

• Cognizant

Associate | Dec 2021 - Apr 2025

◦ MLI SOA Cloud Migration (Max Life Insurance):

- Migrated legacy APIs to **Java Spring Boot** and **AWS** cloud, improving overall application throughput and scalability.
- Designed and implemented cloud migration of legacy API to **AWS** using **Spring Boot** and **Microservices**.
- Mentoring two junior resources, fostering a collaborative team environment.
- Collaborated cross-functionally to resolve bugs and boost product quality.
- Tech Stack: **Java, Spring Boot, Junit5, Mockito, Maven, ECS, CloudWatch, API Gateway, Jenkins**.
- **LM GRS excite Config and Testing (Liberty Mutual Insurance):**
 - Delivered claim related requirements across development and testing environments.
 - Designed/updated claim services utilizing **Java/Spring Boot/AWS microservices**.
 - Tech Stack: **Java, Spring Boot, Maven, Python, AWS Lambda, API Gateway, DynamoDB, SNS, SQS, CloudWatch, S3, Bamboo CI/CD**.
- **LibraryKendra Application:**
 - Developed a full stack Library based Application with 7 Springboot **microservices** and **ReactJS**.
 - Implemented user registration, login, book browsing, and wishlist modules.
 - Configured **Eureka**, Gateway, and Configuration modules for **Spring Cloud** features.
 - Tech Stack: SpringBoot, **Java, Kafka, Eureka, API gateway, Junit5, ReactJS, MySQL, AWS EC2, S3, RDS**.
- **MovieBooking Application:**
 - Built a scalable full stack application for movie booking and management.
 - Developed user features (listing, booking) and admin CRUD operations.
 - Tech Stack: SpringBoot, **Java, Junit5, ReactJS, MongoDB, AWS EC2, S3**.

Education

- **Master of Computer Applications (2019-2021)**

Vellore Institute of Technology, Chennai | CGPA: 8.52

- **Bachelor of Computer Applications (2016-2019)**

Dr. Virendra Swarup Institute of Computer Studies | Kanpur | CGPA: 7.33

Achievements and Awards

- AWS Certified Cloud Practitioner
- HackerRank Java Certificate
